I. Curriculum Framework

What questions or comments do you have about the curriculum prototype?

What is your reaction to the working list of cross-curricular competencies?

What advice do you have on curriculum?

II. **Assessment**

What resonates with you about proposed directions?

What works in your context? What would you change? How would you change it?

To what extent would the proposed changes clear the pathway for innovation in your district?

Do you have any other advice about assessment?

III. Communicating Student Learning

What resonates with you about feedback received to date?

What works in your context? What would you change? How would you change it?

To what extent would the proposed changes clear the pathway for innovation in your district?

Do you have any other advice about communicating student learning?

IV. Graduation Requirements

What resonates with you about feedback received to date?

What works in your context? What would you change? How would you change it?

How can our graduation program prepare more students for success in trades and technical careers?

Do you have any other advice about graduation?

Thank you for your valued input!
